...about change
in Marpole

Areas in the Marpole community are changing. The City has received several rezoning applications in the area, including the corners of Cambie Street and Marine Drive and at the Safeway site at West 70th Avenue and Granville Street. Both applications propose new development with stores, services, increased residential density, and higher buildings.

Come to an information session to learn about the proposals, the emerging policy, and the rezoning process. It's also a chance to offer your ideas, which will help shape the future of your neighbourhood, and find how you can stay involved in it. The input you provide will be considered throughout the process.
